Happy New Year! I hope you and your loved ones had a great holiday season. “New” is the perfect word to describe the many exciting things occurring in the Village of Lisle. New tenants are moving into the beautiful Avant at the Arboretum upscale apartments on Warrenville Rd. New owners are watching their custom homes being built at Arbor Trails on Maple Ave. and Benedictine Pkwy. New students are attending classes on the Universal Technical Institute’s state-of-the-art new campus on Warrenville Rd. A new Rayne’s Steak and Seafood Restaurant is being built in Downtown Lisle, replacing the former Rayne’s Restaurant, which was destroyed by the April flood. New Police Chief Dave Anderson is replacing thirty-four year veteran Chief James Konatka, who resigned at the end of last year. And your new Village Board is coming together as a team and establishing strategic objectives for the Lisle community.

Around this time of year, many people experience Cabin Fever and look for new events or activities to make winter more enjoyable. If you have Cabin Fever, Lisle restaurants have the cure! In this issue of Neighbors, you’ll learn about special discounts our restaurants are offering to entice you out of your house to enjoy great dining experiences. While you are taking advantage of these special offers, you will also be supporting our local businesses during what is normally a slower time of year, a win for everyone involved!

The theme of this issue of Neighbors is “Pet Rescue.” Many of you know my wife and I adopted our dog Charlie five years ago, when he was one week away from being euthanized at a Chicago shelter. Wonderful people—many whom I will never know—intervened along the way to save Charlie and connect him with our family. I am so thankful to all those folks and to the many others who work tirelessly to rescue abused and unwanted animals, finding them new homes. You will read about their tireless efforts in this issue and I know firsthand the difference they make in the lives of pets and people. I thank them for their dedication and efforts.

This year marks my twenty-eighth year of service to the Lisle community—fifteen years as a Trustee, thirteen as your Mayor. As I begin to prepare for the annual State of the Village Address, I think about all the defining moments this community has faced throughout all those years and last year in particular. I will be reviewing highlights from 2013, as well as presenting future plans for Lisle during the address, which will be held during the Lisle Area Chamber of Commerce luncheon on Thurs., Jan. 16 from 11:30am to 1:30pm at the Hilton Lisle (3000 Corporate West Dr.). To register, contact the Lisle Chamber at 630-964-0052. I hope to see you there!

May this year hold great promise, good health and happiness for you and your family.

Mayor Joe Broda
New Lisle developments

Arbor Trails

The long vacant, twenty acre site located at Maple Ave. and Benedictine Pkwy. is being transformed into the new, residential development, Arbor Trails. The first group of 162 homes is being built at eager new homeowners watch the progress. Arbor Trails offers 11 single-family floor plans and multiple two-story styles that range from 2,200 to 3,900 square feet. Options including first-floor master suites and plans designed for multi-generational living add value and flexibility. Open space includes walking/biking paths, ponds, natural wetlands and a new park. Arbor Trails will bring 162 new families to Lisle, return an unsold property to a positive use, and generate new property taxes for the Village. For more, visit arbortrail.com.

Avant at the Arboretum

The new, upscale apartment complex, Avanti at the Arboretum, is welcoming new residents. Located at the eastern portion of Warrenville Rd., the development was constructed on eight acres of land which had remained vacant for decades. Living options include one and two bedroom apartments with private balconies, unit washers/dryers, heated pool, covered parking, club house, business center, fitness room, grill area and more. The highly accessible location enables tenants to quickly connect with transit lines and local roads, and offers corporate corridor employees extremely convenient housing options. This development will generate new property tax revenue, and retains a long vacant, unsold property site back to a positive use. For more information, visit avantatharboretum.com.

Village notes

State of the Village address

Lisle Mayor Joe Broda will present the annual State of the Village address during the Lisle Area Chamber of Commerce lunch on Thurs., Jan. 16 from 11:30am-1:30pm at the Hilton Lisle (300 Corporate West Dr.). To register, contact the Lisle Chamber at 630-964-0092.

Lisle Warming Centers

As temperatures drop and snow-falls, the Village of Lisle reminds residents to take precautions to ensure their health, safety and well-being during days of extreme winter weather. Residents needing relief from the below freezing temperatures and snow are encouraged to seek shelter at the Lisle Library District located at 777 Front St. During regular business hours:

Monday-Thursday: 9:00am-7:00pm

Friday: 9:00am-5:00pm

Saturday: 9:00am-1:00pm

Sunday: Closed

Other warming sites include:

Lisle Village Hall lobby
Lisle Police Department lobby
Lisle Train Station
DuPage County administrative buildings
Other public places

For additional information and/or non-emergency assistance, please contact the Lisle Police Department 630-271-4200. In case of an emergency, call 911 immediately.

Cabin Fever Reliever

Do you have Cabin Fever? The weeks following the holidays can be filled with cold, dreary weather and lots of indoor time. Break free with a little help from your Lisle restaurants. Visit any participating restaurant Sunday through Thursday from Jan. 2 through March 31, spend $25 and receive $5 off your bill. In addition, follow LisleDine.com/llgfever for surprise specials throughout this time. To view video highlights from each participating restaurant, visit lislegfever.org/dine. Discover the wonderful dining experiences available in the Village of Lisle.

Stay green after the holidays—
recycling opportunities for Christmas trees, holiday lights and old electronics

As "The Arborium Village," the Lisle community has always had a great respect for nature and sustainability. Post holiday season is a terrific time to "go green" and recycle a variety of holiday related items including:

- **Live Christmas trees**—Remove all ornaments, tinsel, lights and tree stand. Place tree on the Parkway next to the recycling station on Saturday, Jan. 17. Republic Services will collect the trees at no additional charge and deliver them to The Morton Arboretum where they will be chipped up and used as mulch on the grounds.

- **Holiday lights**—Bring old, unwanted or broken holiday lights to the Lisle Village Hall lobby, Monday through Friday, from 7am to 5pm through Fri, Jan. 31. Collected lights will be responsibly recycled.

**Save the date**—Sustainable Saturday is scheduled for March 22 at Benedictine University. More information will be available in the next issue.

Register for CodeRED warnings

The recent, devastating tornadoes that passed through Illinois remind us that unpredictable, dangerous weather conditions and other emergency situations could occur in our community at any time. The Village of Lisle highly recommends that anyone living or working in Lisle register for the CodeRED Community Notification System. This automated system provides alerts for severe weather and other emergency situations occurring in the Lisle area using sophisticated technology.

Those who have registered for CodeRED Community Notifications in the past will need to register for the new CodeRED Weather Warning System. To do this, visit www.CodereD.org or call 1-866-967-1339 and enter your account information. You will be prompted to select serious weather alerts and emergency notifications such as tornado warnings, severe thunderstorms, flash floods or tornadoes. CodeRED Weather Warnings will notify you via phone call and email.

Hand-held devices banned after Jan. 1

The Lisle Police Department would like to remind residents that a new law regarding cell phones and electronic device usage in vehicles goes into effect Jan. 1. The new law bans the use of any electronic device held in the driver’s hand while driving. This includes, but is not limited to, hand-held wireless telephones, hand-held personal digital assistants, portable or mobile computers and hand-held GPS systems. In addition, drivers may not read or scroll through an iPod, other mobile music device or use a Kindle or other e-reader while driving. Guided positioning or other navigational systems or devices that are physically or electronically integrated into the motor vehicle may be utilized while driving. Cell phones must be in "hands free" mode to be legally used by a driver operating a motor vehicle on any highway in Illinois. Lisle police officers will begin enforcing this statute on Jan. 1.

People can select the type of weather warnings they want to receive such as severe thunderstorms, flash floods or tornadoes. CodeRED Weather Warnings typically notify only those residents who registered in the anticipated path of storms, reducing false warnings.

Once registered for CodeRED Notification and Weather Warnings, community members will be able to easily identify calls coming through their phones. A message recipient’s Caller ID will read "Emergency Communications Network" or "956-419-5000" for CodeRED Notification calls. For CodeRED Weather Warning calls, either "Emergency Communications Network" or the number "800-566-9780" will appear on Caller ID displays. Both numbers should be saved in the phone contacts section of mobile phones for easy recognition.

To register for CodeRED, visit CodereD.org and click on the CodeRED link at the top of the home page. If you have questions, contact Commander Randy Johnson at 630-271-4200.
